Introduction to BAP Portal

IRDA has taken an initiative of automation for facilitation of various activities that need to be undertaken by Insurance companies, surveyors, brokers and Third Party Administrators (TPAs) for regulatory compliance. This program is called the 'Business Analytics Project' or BAP as referred to henceforth.

In the current technology driven environment, this portal delivers ease of use and uniformity in routine activities like online filing of returns, submitting applications for enrollment, new license, renewals and other changes to existing licenses. This application also supports on-line clarification of queries, and provides notifications, reminders and alerts for adherence to timelines.

This initiative will ensure good communication between insurance players and IRDA. Standardized and timely collection of industry data will help IRDA in efficient supervision of insurance operations, monitoring and tracking for the development of the insurance industry in India.

Role of a Broker

Brokers are intermediaries between the prospective customers and insurers. In order to ensure that insurance and reinsurance business is transacted along proper lines, there are set out rules of conduct and licensing procedures to be followed. All brokers operating in the insurance market need to be duly licensed by IRDA and also need to submit periodic returns reporting details of the operations.

Overview

The BAP portal provides easy, one time online registration for brokers. The Insurance Broker can then perform following activities:

- New Broker Applicant Registration
- Creation of sub IDs
- Update / Delete sub Id
- Retrieve user Id/Password

Existing broker have following functionalities available in the BAP Portal:

- Submission of Returns.
- Pay Annual fees.
- View License Details
- Pay Penalty.

The employee of the broker firm can only fill the form; however the submission of the forms can be done by Authorized signatories only. Please refer to IRDA regulations for list of Authorized Signatories.
